PROFILE

Third-year Software Engineering student at Turin Polytechnic University in Tashkent with hands-on experience in software and web development. Skilled in Java, Python, Flask, SQL, JavaScript, HTML/CSS, and Oracle APEX. Experienced in collaborative software development through a five-person team project, with a primary focus on user interface development. Seeking a software development internship or junior developer opportunity.

EDUCATION

Bachelor's Degree in Software Engineering

Turin Polytechnic University in Tashkent (TTPU)
Third-year student | Tashkent, Uzbekistan

Expected 2028

TECHNICAL SKILLS

Programming	Java, Python, JavaScript
Backend	Flask
Databases	SQL, Oracle APEX
Frontend	HTML, CSS, JavaScript
Desktop Development	JavaFX
Tools	Maven, JUnit 5
Concepts	Object-Oriented Programming, UI Development, Agile/Scrum

PROJECTS

KidBank - Virtual Bank Application for Kids

UI Developer | Team Project (5 Developers) | Java 21, JavaFX, Maven, JUnit 5

A JavaFX desktop application designed to teach children financial responsibility through virtual banking, parent-assigned tasks, monetary rewards, and savings goals.

- Designed and implemented the application's user interfaces, including login and registration.
- Built Parent and Child Dashboards for children, tasks, rewards, money, savings goals, and transactions.
- Created reusable UI components and consistent styling across the application.
- Collaborated with four developers to integrate UI, services, and business logic in an Agile process.

LANGUAGES

English - IELTS 6.0

Uzbek - Native

Russian - Conversational
